General Information and Schedules

The Mission of the Mexico Public Schools is to foster in each student a positive self-image, critical and creative thinking skills, for each student to have at his or her command a specific grade level body of knowledge, responsible citizenship and adaptability in a changing technological society facilitated by a professional staff in cooperation with family and community in a safe, disciplined environment.

Mission

The mission of the Mexico Education Center is to establish and maintain an environment that ensures every member of the school community reaches a high level of academic achievement as determined by state and national standards. We are committed to a comprehensive system of student engagement for learning and support to do whatever it takes to accomplish this outcome.

The School

The Mexico Education Center was formed by Mexico Public Schools District in 2006 through district funds and a Safe Schools Grant sponsored by the Missouri Department of Elementary and Secondary Education. Recommendations for placement in MEC are received from Mexico High School administration and counselors. In addition, parents and/or students or other community agencies may request student applications. The school is located on the campus of the Hart Career Center, 905 North Wade Street. The school staff consists of a director, four teachers and one secretary/clerk.

The Students

Students at the Mexico Education Center are selected by a review team of MEC staff along with representatives of district school administrators and counselors. Submitting an application does not automatically qualify an applicant for participation in the school.

May students attending the Center have been unable to be successful in traditional setting due to a variety of possible reasons: substance abuse, unplanned pregnancy, involvement in criminal justice system, depression, poor attendance, academic challenges or severe disruptive behavior? However, not all students who may benefit from an alternative placement will have presented a problem in the traditional school setting. The students who are accepted into the Center must have the desire to stay in school and to achieve the goal of graduation.

The class size will remain small (approximately 10 students to 1 teacher) in order for the student to receive an education in a caring environment through individualized,

self-paced instruction. Each student is expected to be responsible for his or her own learning within a structured, non-traditional setting.

Communication Practices

PHOTOS OF STUDENTS

The staff of Hart Career Center frequently utilizes photos of students to celebrate and recognize the accomplishment and work of our learning community. If you do not want your student's photo to be taken or used, let the office know via a written request.

EMERGENCY SITUATIONS

In case of a tornado warning, students will be sheltered in the HCC basement and other safe areas. All school personnel will be attending to the safety of students. Parents are advised that school phones will likely be unmanned and it will be very difficult to pick up your son or daughter during an imminent tornadic event. After the warning has lifted, students can then easily be released to parents as they return to class with their teachers. **Parents are strongly encouraged to wait until after emergency situation have passed to come to school and pick up students.**

FEMA Materials

Materials prepared by the Federal Emergency Management Agency that develop public awareness and understanding of earthquakes and explains safety measures to be taken will be made available upon request.

Trauma-Informed Schools Initiative

Pursuant to Missouri Senate Bill 638, Section 161.1050, the Missouri Department of Elementary and Secondary Education (DESE) have established the "Trauma-Informed Initiative." Which includes providing information and training to school districts regarding the trauma-informed approach, how schools can become trauma-informed schools. A website about the trauma-informed schools initiative has been developed that includes information for schools and parents.

Please visit the Missouri Department of Elementary and Secondary Education's website for more information about the Trauma-Informed School by visiting this website <https://dese.mo.gov/traumainformed> and learn more about the Missouri Model: A Developmental Framework for Trauma-Informed Schools.

Crisis Reunification

In the event of a crisis, a reunification place will be announced. Parents will be required to come to the reunification place and see the attending staff member to check out their student.

Every attempt will be made to send students with parents or emergency contacts listed on the student's record. In some situations, this may not be possible. It will be our practice to release students to any adult with whom he/she is comfortable. Adults will be required to show identification, sign for students and indicate relationship to student (aunt, uncle, grandparent, family friend, etc.....).

Curriculum

The curriculum of Mexico Education Center will correspond to that of Mexico High School. It is important that students be able to experience continuity in their educational goals. The curriculum is aligned to the guidelines established by the Missouri Grade Level Expectations and the district course objectives. A computer-based curriculum entitled Odysseyware will be used for the core subject areas of math, science and social studies. In addition, students will receive regular instruction in life skills.

Those students enrolled in the program who are working under the Missouri Options Program will follow those guidelines and goals as outlined by this separate program of instruction.

Elective courses comparable to those being offered at Mexico High School will be made available through the alternative school. Additional electives may be offered to match the needs of the student population at MEC. Students will graduate having obtained 24 credit hours in the appropriate subject areas.

Instruction

While students receive instruction through computer-based learning, time will also be spent on text material and written work. This will be assigned by the Center staff and reflect the individual student's need. The same text materials used at Mexico High School will be used by Mexico Education Center. Additional resources will also be available as deemed necessary by staff. Included in the Center instruction will be: Service Learning Projects, Current Issues, Job Readiness and Basic Life Skills. Work outside the classroom setting will also be encouraged through employment or volunteerism. Students who work outside the classroom may be eligible for elective credit for this work experience.

Virtual Education (MOCAP)

Mexico School District 59 will provide access to virtual (online) coursework for students. Students and families that are interested in virtual coursework should contact the student's school counselor and inquire about the Missouri Course Access Program (MOCAP).

MOCAP offers virtual online courses for students statewide. Students can take an entire course from any Internet-connected computer, available 24 hours a day, seven days a week. MOCAP's mission is to offer Missouri students equal access to a wide range of high quality courses and interactive online learning that is neither time nor place dependent.

The Missouri Department of Elementary and Secondary Education (DESE) and the State Board of Education oversee administration and quality assurance activities such as related content and delivery of courses. Missouri-certified teachers facilitate MOCAP courses. MOCAP provides Missouri students with equal access to a wide range of coursework, anywhere, any time. For more information, visit the: [Missouri Course Access Program](#).

Student Services

Computer Usage

Technology plays a vital role in education at Mexico Education Center. Therefore, technology should only be used as outlined in the Technology Usage Agreement (TUA). This policy is located near the end of this handbook under district policies. Any student found to be in violation of the TUA or otherwise using computers, cell-phones or other electronic devices inappropriately will be subject to disciplinary action. Students are also expected to use all personal electronic devices appropriately while at school. Students will be allowed the privilege of using their personal electronic devices at school as long as they do so appropriately. Any activity on social media or online, regardless of time of day or location, that becomes a disruption at school will be addressed by school personnel and can be subject to disciplinary action.

Lost and Found

All lost and found items should be turned in and claimed at the office. At the end of the year, unclaimed items will be given to a charitable organization.

STUDENT PROCEDURES, EXPECTATIONS, AND CONDUCT

Mexico High School

While students are enrolled in Mexico Education Center they **are not** to be on the grounds of Mexico High School during the school day unless enrolled in a class in that building. This includes just prior to and at the immediate close of the school day. MEC students may receive prior permission from school office to be at MHS for special circumstances. Mexico Education Center students **are** permitted to attend extra-curricular activities following the district expectations as for all students.

Hart Career Center

Students enrolled at MEC are expected to remain in the area of HCC designated for MEC unless enrolled in another Career Center course. While in the building, students are expected to be courteous and compliant with all Career Center staff and administration.

School Climate

Mexico Education Center strives to provide a business-like, professional atmosphere with a caring component. Alternative school students need to know they are cared for but we also stress the importance of making 'good choices'. It is the student's responsibility to make those choices and accept the consequences of making poor decisions. We believe that positive self-esteem is the result of learning to make the correct choices and MEC will guide that process.

Students are given instruction in social skills, appropriate behavior responses for success in a job, family life, and basic skills. The expectation is such that MEC is the students' workplace. It will be up to each person to maintain the desired climate by learning how to get along with each other in a professional and courteous manner.

Bus Transportation

Bus transportation is a school service. Students are responsible to the driver at all times and are expected to be courteous and considerate to others. Mexico School District may choose to provide transportation for students less than one mile from his/her attendance center at an allowable cost, which is reviewed annually by the Board of Education.

Care of Equipment

Proper care and use of equipment is of utmost importance. We stress keeping up-to-date equipment operational at all times in our training programs. This can only be done with the proper use and care of equipment by each individual student.

****If in the event that our district initiates remote learning and a device is checked out to your student or family, you are expected to follow district procedures and information regarding school devices. Your failure to timely return the property and the continued use of it for non-school purposes without the school's consent will be considered unlawful appropriation of school property and you will be turned into collections for the full replacement cost of the device, charger, and protective bag. All fees and fines must be paid on a yearly basis on or prior to the registration date.**

Safety

We CANNOT over-stress safety. Safety is a very important aspect of the world of work. A safe and healthy workforce is a valuable asset to business and industry. Safety is as much an ATTITUDE as it is knowledge. Each student is responsible to learn all safety procedures and to put those procedures into practice. Students may also be required to wear additional safety clothing or equipment as required by individual programs.

School Cancellations

When it becomes necessary to dismiss school because of inclement weather, please listen to KXEO - Mexico – 1340 AM and/or KWWR - Mexico – 95.7 FM. The school will also post cancellations/early dismissals on our website, as well as generate our calling system to make phone calls. Please do not call the school or the radio stations.

Admittance

Admittance to Mexico Education Center will be as follows:

- A recommendation by MHS administration and counselors based on feedback received from teaching staff and parents.
- A comparison of the student's performance with criteria established by the guidance office of MHS.
- A request of the student for enrollment
- An entrance interview with the student may include MHS staff, MEC staff and the parent/guardian
- A commitment signed by student, parent/guardian and MEC staff.

An enrollment packet must be completed in full for admission consideration. All school and health records must be current prior to admission. Not every student desiring

acceptance to Mexico Education Center is a candidate for enrollment. Student acceptance is based individually on the application, interview, and availability of space. Every attempt is made at Mexico High to help the student meet success through a regular program prior to making a MEC referral. Students may be placed on a waiting list until an opening becomes available and an opportunity to review the candidate's application.

Visitors

All visitors to MEC must check in with staff upon arrival. Students may not bring visitors to the Center without permission from the director. **This includes break time.** Parents are always welcome to visit the school as are advisors and consultants to the students and the program.

Extracurricular Activities

Students who are already enrolled in extracurricular activities or would like to be involved in activities should contact Mr. Anderson, Athletic Director, at Mexico High School. MEC students must follow the guidelines outlined for participation at MHS.

Food and Beverage

Breakfast and lunch will be offered to MEC students. Students are encouraged to participate in the district food service program. Lunches must be ordered in advance. Students who plan to eat lunch need to arrive early enough to eat before class begins (PM Session) or eat after dismissal (AM Session). **School lunches and food containers will not be allowed outside the designated area.** Students may bring their own snack to be consumed during the daily break time. Students are allowed to have food charges up to one week.

DISCIPLINE POLICY AND GUIDELINES (See Board Regulations JG-R1)

SCHOOL BUSINESS, GOOD ORDER AND DISCIPLINE

Show Respect, Earn Respect

When everyone respects the rule and one another, everyone wins. The following rules, guidelines and procedures are required to maintain the safety and welfare of Mexico Education Center students, faculty and staff.

General Rules for a Safe and Orderly Environment

In general, school is a place for the business of educating students. We expect all students to abide by these basic school rules and guidelines at school:

- Offensive language and yelling are not allowed.
- Apparel that is offensive, revealing, or conceals an individual's identity is prohibited.
- Running, horseplay, or behavior that could endanger others is prohibited.
- Blocking or impeding traffic within the school is not permitted.

The Adult Rule

Students are expected to obey any legal and reasonable request of adults employed by the school district. When an administrator, teacher, secretary, nurse, cook, custodian or any other school employee asks a student to do something or to stop doing something, all students are expected to obey with respect. Respect for authority includes following instructions to the best of the student's ability and as quickly as possible. When an adult is speaking to a student, students should stop what they are doing and listen carefully until the adult is finished.

Video Surveillance Warning

Mexico Education Center/Hart Career Center employs video surveillance equipment for security purposes. This equipment may or may not be monitored at any time. The Mexico Public School District prohibits the use of video or audio recording equipment on district property or at district activities by students except those as listed in Policy KKB.

CONSEQUENCES AND GENERAL EXPECTATIONS

Due Process

Students have the right to due process concerning disciplinary actions (1) to be given oral or written notice of charges against them, (2) to be given oral or written explanation of the facts which form the basis of the proposed disciplinary action, (3) to be given the opportunity to present their version of the incident, (4) to appeal staff members' actions to the building administration. A maximum of ten (10) days out-of-school suspension (per incident) can be assigned by the building administrators. The superintendent may add more days.

Behavior

No student has the right to disrupt school. Speech or any action which disrupts the school program cannot be permitted. Students who cause interference with work in the classroom or who cause disorder in the school will be subject to disciplinary action.

Respect

Students are expected to show respect towards their peers, school employees and guests. Any physical, spoken or written act of abuse, harassment, intimidation or remarks of a personally derogatory nature toward any other person in unacceptable. Lack of respect based on, but not limited to, race, color, creed, national origin, sexual orientation (including gender identity) or physical or mental disability will result in disciplinary consequences.

TELEPHONES AND ELECTRONIC DEVICES POLICY and TELEPHONES

Office Phones

The office phones are for official school business. Students will be allowed to use them only in emergencies. Students will not be taken out of class to answer telephone calls. Emergency messages will be delivered. Also, a phone is located at the main office for local calls with a time limit.

Parents and Guardians are advised

There is no need for a student to have a cell phone at school. Students that need to use a phone to contact their parents may do so at the main office desk and parents may contact students by calling the main office. The office secretaries can contact students via intercom and delivering a written message.

Cell phones and electronic devices such as IPODS are often lost and can be stolen at school.

**The MEC Director advises all parents to have their son or daughter leave these items at home.

Lost or stolen electronic devices will be handled as follows:

1. Student will fill out a written report on the lost or stolen item.
2. The report will be given to the office secretary or the school resource officer (locally commissioned Mexico Public Safety police officer)
3. The report will be handled by the school resource officer and all questions or concerns about the lost or stolen item will be investigate by the police.
4. If a suspect is identified by police for theft, a school administrator will handle the issue within the guidelines of school policy regarding thefts at school.

**Concerns about the handling of the case by the school resource officer may be directed to the Director.

Electronic Devices

Students are urged not to bring cellular phones, beepers, pagers, CD players, IPods, etc. to school due to theft and possible disciplinary action for violating the policy on electronic devices during the school day. The school is not responsible for stolen electronic items. These items can be frequently stolen, difficult to retrieve, and there is limited administrative time available to investigate the theft of such items.

Recording by Students

The Mexico School District prohibits the use of video or audio recording equipment (including cell phones or any device capable or recording) on district property or at district activities by students except:

- If required by a school-sponsored class or activity.
- At performances or activities to which the general public is invited such as athletic competitions, concerts and plays.
- At open meetings of the Board of Education or committees appointed by or at the direction of the Board.
- As otherwise permitted by the building director.

Bullying and Harassment via Electronic Devices, Protocols and Procedures

No student device can be searched without reasonable suspicion a school violation has occurred. Reports of bullying, threats, illegal behavior, and harassment are taken very seriously by school administration. If a phone is allegedly used to facilitate this kind of behavior and there is evidence (witnesses or other electronic evidence) a search may be warranted by school administration.

The following guidelines only concern the privilege of using an electronic device at school. There may be additional suspensions related to the inappropriate use of electronic devices which could be suspension in school or out of school. For unauthorized electronic device use for the purpose of bullying, harassing, or threatening others or to substantially disrupt the school day:

- 1st Violation: Device confiscated – parent contacted – the student is prohibited from having a personal electronic device at school from 30 days to the remainder of their enrollment at the Career Center. If the student brings a device during this period, they will be suspended for deliberate disobedience.
- 2nd Violation: Device confiscated – parent contacted – the student is prohibited from having a device for the remainder of their enrollment at the Career Center. If the student brings a device during this period, they will be suspended for deliberate disobedience.

*Note: If a student refused to turn in an electronic device upon reasonable suspicion an offense has occurred related to bullying, harassing or threatening behavior, the student will be prohibited from having a device at school the remainder of the school year or the remainder of their enrollment at the Career Center.

Unauthorized Use of Electronic Devices

For unauthorized electronic device use during the school day – simple sure during class time:

Teacher Intervention:

- 1st Violation: Teacher confiscates for the rest of class period.

Administrative Intervention (repeated issue in class):

- 1st Violation: Device confiscated – student may pick up at the end of the day.
- 2nd Violation: Device confiscated and returned upon parental contact at the end of the day.
- 3rd Offense: Device confiscated – parent contacted – the student is prohibited from having a device for 30 school days.
- 4th Offense: Device is confiscated and will only be returned to a parent. Failure to turn over an electronic device to school personnel will result in automatic 4th violation consequences and out of school suspension.

Valuables

Mexico Public Schools assume no responsibility for goods or valuables belonging to pupils, personnel or visitors, whether or not the items are placed in designated safekeeping or elsewhere in the building or on the grounds. Large sums of money and valuables should be left at home.

In-School Suspension – B.I.P. Behavior Intervention Program (MHS Students)

B.I.P. will be for school days. The student will not be allowed to attend school-sponsored activities on days assigned to B.I.P. If administration feels B.I.P. would not be beneficial to the student or that the student would endanger the well-being of others while attending B.I.P., the student may be denied the alternative of B.I.P. and placed in out-of-school suspension. If a student has been repeatedly unsuccessful in B.I.P. he/she may receive other disciplinary actions. While in B.I.P. the student will receive credit for work completed during his/her in-school suspension. Part-time students assigned to B.I.P. will attend only the hours they would normally be in school.

Out-of-School Suspension

Out-of-school suspension will be for school days. If a student is suspended at the end of the school year, and there is not a sufficient number of school days remaining in the school year for the student to complete his/her suspension time, the student's suspension may continue into the next school year until all suspension time is completed.

If a student is a senior and is suspended at the end of the school year without a sufficient number of days remaining to complete his/her suspension, he/she will not be allowed to attend any school activities, which may include graduation activities.

If a student is suspended, he/she shall not attend any school-sponsored functions or be permitted on school property. For acts of violence, drug-related activity or specific offenses, a student may not be within 1,000 feet of any district school. Any class works, quizzes, homework, participation in points or daily points are all zero while suspended. The above work cannot be made up. A suspended student may make up tests, major papers and major projects. The student must make arrangements with each teacher the first day he/she returns to school after his/her out-of-school suspension. Building level administrators may assign a maximum of ten days of out-of-school suspension per incident. The superintendent may assign additional days if warranted.

Discipline Infractions and P.B.I.S. Focus

It is our aim to promote, teach and affirm positive behavior conducive to the workplace at Mexico Education Center.

However, students must also face fair consequences for inappropriate actions and be reminded of the boundaries of the behavior in the workplace. Especially in instances their behavior detracts from the learning of other students.

No disciplinary code can contain all possible offenses and the following list is not exhaustive, a school administrator can discipline a student for any action that is disruptive to the school environment, whether it occurs on or off school property. In addition, consequences may be increased or decreased depending on the circumstances of each case by the administrator reviewing and making the consequence determination of on a student case. Finally, the school administration works cooperatively with local police and will notify the police when a crime occurs on school property.

Fighting/Assaults

Students who engage in fighting (punch thrown by both sides) or a student who assaults another student will be subject to disciplinary action. If both students fight, both receive the same consequences, unless there are mitigating circumstances. If one assaults another, he/she will receive the consequence. A student who fights or assaults in or adjacent to the school will receive the following consequences:

District Obligation to Provide Education Services

Missouri school districts are responsible for meeting the educational needs of an increasingly diverse student population by providing a wide range of resources and support to ensure that all students have the opportunity to succeed and be college prepared and career ready. Our school district has programs designed to help meet the unique educational needs of children working to learn the English language, students who are advanced learners, student with disabilities, homeless students, the children of migratory workers, and neglected or delinquent students. Special Education Services

The Mexico School District has a comprehensive special services program that is designed to meet the academic, intellectual, motor, behavioral, and social/emotional needs of all children ages 3-21 that are eligible to receive services. To be eligible, students are evaluated, after securing written parent permission, and must meet state-sanctioned criteria in order to receive services. The district and its personnel will always partner with parents to create an educational plan that best meets the needs of students.

Alternatively, the Department of Elementary and Secondary Education (DESE) will forward a complaint to the district for resolution.

The superintendent or designee will investigate and provide a written response to the complainant within five business days of receiving the complaint unless additional time is necessary to investigate or extenuating circumstances exist. The superintendent or designee is authorized to contact the district's private attorney for assistance in determining whether a violation has occurred.

2. If the complainant not satisfied, he or she may request that the issue be placed on the Board agenda at the next Board meeting, using the process outlined in Board policy,

The superintendent or designee will notify the complainant of the Board's decision and will provide the complainant a copy of DESE's Every Student Succeeds Act of 2015 (ESSA) Complaint Procedures.

Technology Usage

The Mexico School District's technology exists for the purpose of enhancing the educational opportunities and achievement of district students. Research shows that students who have access to technology improve achievement. In addition, technology assists with the professional enrichment of the staff and increases engagement of students' families and other patrons of the district, all of which positively impact student achievement. The district will periodically conduct a technology census to ensure that instructional resources and equipment that support and extend the curriculum are readily available to teachers and students.

The purpose of this policy is to facilitate the access to district technology and to create a safe environment in which to use that technology. Because technology changes rapidly and employees and students need immediate guidance, the superintendent or designee is directed to create procedures to implement this policy and to regularly review those procedures to ensure they are current.

Definitions

For the purposes of this policy and related procedures and forms, the following terms are defined:

Technology Resources – Technologies, devices and services used to access, process, store or communicate information. This definition includes, but is not limited to: computers; modems; printers; scanners; fax machines and transmissions; telephonic equipment; mobile phones; audio-visual equipment; Internet; electron mail (e-mail); electronic communications devices and services, including wireless access; multi-media resources; hardware; and software. Technology resources may include technologies, devices and services provided to the district by a third party.

User – Any person who is permitted by the district to utilize any portion of the district's technology resources including, but not limited to, students, employees, School Board members and agents of the school district.

User Identification (ID) – Any identifier that would allow a user access to the district's technology resources or to any program including, but not limited to, e-mail and Internet access.

Password – A unique word, phrase or combination of alphabetic, numeric and non-alphanumeric characters used to authenticate a user ID as belonging to a user.

Authorized Users

The district's technology resources may be used by authorized students, employees, School Board members and other persons approved by the superintendent or designee, such as consultants, legal counsel and independent contractors. All users must agree to follow the district's policies and procedures and sign or electronically consent to the district's User Agreement prior to accessing or using district technology resources, unless excused by the superintendent or designee.

Use of the district's technology resources is a privilege, not a right. No potential user will be given an ID, password or other access to district technology if he or she is considered a security risk by the superintendent or designee.

User Privacy

A user does not have a legal expectation of privacy in the user's electronic communications or other activities involving the district's technology resources including, but not limited to, voice mail, telecommunications, email and access to the Internet or network drives. By using the district's network and technology resources, all users are consenting to having their electronic communications and all other use monitored by the district. A user ID with email access will only be provided to authorize users on condition that the user consents to interception of or access to all communications accessed, sent, received or stored using district technology.

Electronic communications, downloaded material and all data stored on the district's technology resources, including files deleted from a user's account, may be intercepted, accessed, monitored or searched by district administrators or their designees any time in the regular course of business. Such access may include, but is not limited to, verifying that users are complying with district policies and rules and investigating potential misconduct. Any such search, access or interception shall comply with all applicable laws. Users are required to return district technology resources to the district upon demand including, but not limited to, mobile phones, laptops and tablets.

Technology Administration

The Board directs the superintendent or designee to assign trained personnel to maintain the district's technology in a manner that will protect the district from liability and will protect confidential student and employee information retained on or accessible through district technology resources.

Administrators of district technology resources may suspend access to and/or availability of the district's technology resources to diagnose and investigate the network problems or potential violations of the law or district policies and procedures. All district technology resources are considered district property. The district may remove, change or exchange hardware or other technology between buildings, classrooms or users at any time without prior notice. Authorized district personnel may install or remove programs or information, install equipment, upgrade any system or enter any system at any time.

Content Filtering and Monitoring

The district will monitor the online activities of minors and operate a technology protection measure ("content filter") on the network and all district technology with Internet access, as required by law. In accordance with law, the content filter will be used to protect against access to visual depictions that are obscene or harmful to minors or are child pornography. Content filters are not foolproof, and the district cannot guarantee that users will never be able to access offensive materials using district equipment. Evading or disabling or attempting to evade or disable, a content filter installed by the district is prohibited.

The superintendent, designee or the district's technology administrator may fully or partially disable the district's content filter to enable access for an adult for bona fide research or other lawful purposes. In making decisions to fully or partially disable the district's content filter, the administrator shall consider whether the use will serve a legitimate educational purpose or otherwise benefit the district.

Online, Safety, Security and Confidentiality

In addition to the use of a content filter, the district will take measures to prevent minors from using district technology to access inappropriate matter or materials harmful to minors on the Internet. Such measures shall include, but are not limited to, supervising and monitoring student technology use, care planning when using technology in the curriculum, and instruction on appropriate materials. The superintendent, designee and/or the district's technology administrator will develop procedures to provide users guidance on which materials and uses are inappropriate, including network etiquette guidelines.

All minor students will be instructed on safety and security issues, including instruction on the dangers of sharing personal information about themselves or others when using e-mail, social media, chat rooms or other forms of direct electronic communication. Instruction will also address cyber bullying awareness and response and appropriate

online behavior including interacting with other individuals on social networking websites and in chat rooms.

This instruction will occur in the district's computer courses, courses in which students are introduced to the computer and the Internet, or courses that use the Internet in instruction. Students are required to follow all district rules when using district technology resources and are prohibited from sharing personal information online unless authorized by the district.

All district employees must abide by state and federal laws, Board policies and procedures when using district technology resources to communicate information about personally identifiable students to prevent unlawful disclosure of student information or records.

All users are prohibited from using district technology to gain unauthorized access to a technology system or information; connect to other systems in evasion of the physical limitations of the remote system; copy district files without authorization; interfere with the ability of others to utilize technology; secure a higher level of privilege without authorization; introduce computer viruses, hacking tools, or other disruptive/destructive programs onto district technology; or evade or disable a content filter.

Closed Forum

The district's technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law. The district's web page will provide information about the school district, but will not be used as an open forum.

All expressive activities involving district technology resources that students, parents/guardians and members of the public might reasonably perceive to bear the imprimatur of the district and that are designed to impart particular knowledge or skills to student participants and audiences are considered curricular publications. All curricular publications are subject to reasonable prior restraint, editing and deletion on behalf of the school district for legitimate pedagogical reasons. All other expressive activities involving the district's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by law and Board policies.

Records Retention

Trained personnel shall establish a retention schedule for the regular archiving or deletion of data stored on district technology resources. The retention schedule must

comply with the *Public School District Records Retention Manual* as well as the *General Records Retention Manual* published by the Missouri Secretary of State.

In the case of pending threatened litigation, the district's attorney will issue a litigation hold directive to the superintendent or designee. The litigation hold directive will override any records retention schedule that may have otherwise called for the transfer, disposal or destruction of relevant documents until the hold has been lifted by the district's attorney. E-mail and other technology accounts of separated employees that have been placed on a litigation hold will be maintained by the district's information technology department until the hold is released. No employee who has been so notified of litigation hold may alter or delete any electronic record that falls within the scope of the hold. Violation of the hold may subject the individual to disciplinary actions, up to and including termination or employment, as well as personal liability for civil and/or criminal sanctions by the courts or laws enforcement agencies.

Violations of Technology Usage Policies and Procedures

Use of technology resources in a disruptive, inappropriate or illegal manner impairs the district's mission, squanders resources and shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district's technology resources. Any violation of district policies or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges. User privileges may be suspended pending investigation into the use of the district's technology resources.

Employees may be disciplined or terminated, and students suspended or expelled, for violating the district's technology policies and procedures. Any attempted violation of the district's technology policies or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation. The district will cooperate with law enforcement in investigating any unlawful use of the district's technology resources.

Damages

All damages incurred by the district due to a user's intentional or negligent misuse of the district's technology resources, including loss of property and staff time, will be charged to the user. District administrators have the authority to sign any criminal complaint regarding damage to district technology.

No Warranty/No Endorsement

The district makes no warranties of any kind, whether expressed or implied, for the services, products or access it provides. The district's technology resources are available on an "as is, as available" basis.

The district is not responsible for loss of data, delays, non-delivered, misdeliveries or service interruptions. The district does not endorse the content nor guarantee the accuracy or quality of information obtained using the district's technology resources.

The district will also administer a reading assessment to all students who transfer to the district in grades four, five or six and to all students attending summer school due to a reading deficiency, as required by law.

The district will annually assess the English, reading, writing and oral language skills of its students with limited English proficiency.

Statewide Assessments

The district has implemented the Missouri Assessment Program (MAP) in order to monitor the progress of all students in meeting the Show-Me Standards, as set forth by the Missouri State Board of Education.

End-of-course (EOC) assessments will be administered in accordance with law and the rules of the Department of Elementary and Secondary Education (DESE). In courses where EOC assessments are given, the superintendent will determine what percent of the course grade will be decided by performance on EOC assessments.

If a student is taking a course that requires an EOC assessment and is failing the course or for some other reason may be required to retake the course, the district may choose to delay administration of the EOC assessment until the student has completed the course the second time. A team consisting of the course instructor, the principal and a counselor will determine when delayed administration of an EOC assessment is appropriate. In the case of a student with an Individualized Education

Program (IEP), the IEP team will make the determination.

The School Board authorizes the superintendent to establish a process designed to encourage the students of the district to give their best efforts on each portion of any statewide assessment, which may include, but is not limited to, incentives or supplementary work as a consequence of performance.

The district's policy on student participation in statewide assessments shall be provided at the beginning of the school year to each student and the parent, guardian (or other person responsible) for every student under 18 years of age. The policy will also be kept in the district office and be available for viewing by the public during business hours of the district office.

National Assessment of Educational Progress (NAEP)

If chosen, the district will participate in the National Assessment of Educational Progress (NAEP) as required by law.

Teacher Certification

Missouri Teacher Certification

Mexico School District strives to have fully certified personnel serving our students. Any parent is welcome to send a written request to Bethany Collins, Superintendent's Office 2101 Lakeview, Mexico, MO 65265 requesting a copy of the certification for any teacher his/her child has. We offer this in compliance with our Missouri School law and as an assurance for our patrons.

Health Policies

I. Physical Examinations

The Board of Education recommends that each child entering the Mexico Public Schools and those entering the ninth grade have a physical examination unless such information is provided in the transferred records.

II. Immunizations

Immunizations against Diphtheria, Tetanus, Pertussis, Polio, Measles, Rubella, Mumps, Hepatitis B and Varicella (chicken Pox), or proof of the disease, are required. An immunization record must be presented at the time of enrollment. Missouri State Law, Section 167.181, RSMo. 19 CSR 20-28.010 will be followed. It is unlawful for any student to attend school unless the child has been immunized according to state law. See Missouri School Immunizations. Requirements on our website at www.mexicoschool.net, under the top tab "Document Center" and then under drop down list "Health".

Immunization Requirements

Missouri School Immunization Requirements

Students must present documentation of up-to-date immunizations status, including month, day and year of each immunization before attending schools.

The Advisory Committee on Immunization Practices allows a 4-day grace period. Students in all grade levels may receive immunizations up to four days before the due date.

For children beginning kindergarten during or after the 2003-04 school year, required immunizations should be administered according to the current Advisory Committee on Immunization Practices Schedule, including all spacing, (<http://www.cdc.gov/vaccines/rec/schedules/child-schedule.htm>).

To remain in school, students "in progress" must have an Immunization in Progress form (Imm.P.14), which includes the appointment date for needed immunizations, on file and must receive immunizations as soon as they become due. In progress means that a child has begun the vaccine series and has an appointment for the next dose. This appointment must be kept and an updated record provided to the school. If the appointment is not kept, the child is no longer in progress and noncompliant. (i.e., hep B vaccine series was started but the child is not yet eligible to receive the next dose in the series.) In progress does not apply to the Tdap or Td booster.

Religious (Imm.P.11A) and Medical (Imm.P.12) exemptions are allowed. The appropriate exemption card must be on file. Unimmunized children are subject to exclusion from school when outbreaks of vaccine-preventable diseases occur.

Last dose on or after the fourth birthday and the last dose of pediatric Pertussis before the seventh birthday. Maximum needed: six doses. Tdap, which contains Pertussis vaccine, is required for students enrolled in the eighth, ninth and tenth grade who have completed the recommended childhood DTaP/DTP vaccination series and have not received a Td booster dose within the past two years. If a student received a Tdap booster the student is up-to-date. Tdap is currently licensed for one dose only; an additional dose is not needed. For 11-12 grades, a Tdap or Td booster is required 10 years after the last doses of DTaP, DTP or DT. In the event of a Pertussis outbreak situation, Tdap may be given at intervals less than 10 years.

Kindergarten – 2 Grade: Last dose must be administered on or after the fourth birthday. The interval between the next to-last and last dose should be at least six months.

3-12 Grades: Last dose on or after the fourth birthday. If all four doses are administered appropriately and received prior to the fourth birthday, an additional dose is not needed. Any combination of four doses of IPV and OPV by four six years of age constitutes a complete series. Maximum needed: four doses.

Kindergarten – 2 Grade: as satisfactory evidence of disease, an MD or DO may sign and place on file with the school a written statement documenting the month and year of previous varicella (chickenpox) disease.

3 – 7 Grades: As satisfactory evidence of disease, a parent/guardian or MD or DO may sign and place on file with the school a written statement documenting the month and year of previous varicella (chickenpox) disease.

Insurance for Students

Students may purchase low-cost insurance, which is made available to all students through an independent agency. This insurance covers accidents or injury sustained while the students are at school or at school-sponsored activities. The information will be available at fall registration.

Interrogations, Interviews and Searches

Mexico School District Board Policy JFG

Searches by School Personnel

Each student is assigned a locker. Lockers are the property of the school district; therefore, no locker fees will be charged for their use. As property of the school, school officials may inspect lockers at any time. The cost of repairing any damage to a locker shall be charged to the student. **LOCK YOUR LOCKER!**

1. School lockers, desks and other district property are provided for the convenience of students and, as such, are subject to periodic inspection without notice.
2. Student property may be searched based on reasonable suspicion of a violation of district rules, policy or law.
3. Reasoned suspicion must be based on facts known to the administration, credible information or reasonable inference drawn from such facts or information. Searches of student property shall be in scope based on the original justification of the search. The privacy and dignity of students shall be respected. Searches shall be carried out in the presence of adult witnesses and not in front of other students, unless exigent circumstances exist.
4. It is a privilege, not a right, to park on school grounds. The school retains the authority to conduct routine patrols of any vehicle parked on school grounds. The interior of a student's automobile on school premises may be searched if the school authority has reasonable suspicion to believe that such a search will produce evidence that the student has violated or is violating either the law or district policy.
5. The administration will contact law enforcement officials to perform a search if the administration reasonably suspects that a student is concealing controlled substances, drug paraphernalia, weapons, stolen goods or evidence of a crime beneath his or her clothing and the student refuses to surrender such items. Law enforcement officials may be contacted for assistance in performing a search in any case in which a student refuses to allow a search or in which the search cannot safely be conducted.
6. School employees and volunteers, other than commissioned law enforcement officers, shall not strip search students, as defined in state law, except in situations where an employee reasonably believes that the student possesses a weapon, explosive or substance that poses an imminent threat of physical harm to the student or others and a commissioned law enforcement officer is not immediately available. If a student is strip searched, as defined in state law, by a school employee or a commissioned law enforcement officer, the district will attempt to notify the student's parents/guardians as soon as possible.
7. During an examination, and if reasonable under the circumstances, school employees may require students to empty pockets or remove jackets, coats,

shoes and other articles of exterior clothing that when removed do not expose underwear. Employees may also remove student clothing to investigate the potential abuse or neglect of a student, give medical attention to a student, provide health services to a student or screen a student for medical conditions.

School Resource Officers

The school resource officer (SRO) may interview or question students regarding an alleged violation of law. A school resource officer may also accompany school officials executing a search or may perform searches under the direction of school officials.

Interview with Police or Juvenile Officers/Other Law Enforcement Officials

Law enforcement officials may wish to interview students regarding their knowledge of suspected criminal activity and may wish to interrogate students who are themselves suspected of engaging in criminal activity. Such interviews and interrogations are discouraged during class time, except when law enforcement officials have a warrant or other court order or when an emergency or other exigent circumstances exist. It is the responsibility of the principal or designee to take reasonable steps to prevent disruption of school operations while at the same time cooperating with law enforcement efforts.

When law enforcement officials find it necessary to question students during the school day or during periods of extracurricular activities, the school principal or designee will be present and the interview will be conducted in private. The principal will verify and record the identity of the officer or other authority and request an explanation of the need to question or interview the student at school. The principal ordinarily will make reasonable efforts to notify the student's parents/guardians unless the interviewer raises a valid objection to the notification.

Removal of Students from School by Law Enforcement Officials

Before a student at school is arrested or taken into custody by law enforcement official or other legally authorized person; the principal will verify the official's identity. To the best of his or her ability, the principal will verify the official's authority to take custody of the student. The school principal will attempt to notify the student's parents/guardians that the student is being removed from school.

Use of Drug-Detecting Dogs in Cooperation with Law Enforcement Authorities

In order to further safety and promote discipline in the district by deterring and policing misconduct related to drugs, alcohol, tobacco, weapons and other contraband on school property, the Board of Education has authorized the use of trained drug-detecting dogs in cooperation with the Audrain County Sheriff's Department or other law enforcement authorities.

Interview with the Children's Division

Representatives of the Children's Division (CD) of the Department of Social Services

may meet with students on campus. The district liaison will work with CD to arrange such meetings so they are minimally disruptive to the student's schedule. If the student is an alleged victim of abuse or neglect, CD may not meet with the student in any school building or child care facility where the abuse of the student allegedly occurred. The principal will verify and record the identity of any CD representatives who request to meet with or take custody of a student.

Contacts by Guardian Ad Litem and Court-Appointed Special Advocate

When a court-appointed guardian ad litem or special advocate finds it necessary to interview a student during the school day or during periods of extracurricular activities, the school principal or designee must be notified. The principal will verify and record identity of the individual through the court order that appoints him or her. The interview must be conducted in a private setting and with the least disruption to the student's schedule.

District Obligation to Provide Education Services

Our district provides services to special education students from ages 3 to 21. A complete notice follows:

Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The Mexico School District has developed a Local Compliance Plan for the implementation of the State Regulation for the Individuals with Disabilities Education

Act (IDEA). This plan contains the agency's policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with the General Education Provision Act (GEPA). This plan may be reviewed in the district's central office by contacting the superintendent of school at (573) 581-3773.

Grievance Procedures

Grievance Procedure and Resolution of Complaints

The administration will establish an effective grievance procedure and take any other actions necessary to carry out this policy, with due regard for the substantive and procedural rights of all parties concerned.

Public Notice and Dissemination:

A copy of this grievance policy will be posted in a public area of each building used for instruction and/or administrative offices. A copy of this policy will also be distributed annually to employees, parents or guardians and students. The administration is directed to further publicize this policy and provide for such training or instruction as necessary to ensure district-wide compliance with anti-discrimination laws, including instruction in recognizing behavior indicative of a violation of this policy.

Reporting and Complaints

Complaints and reports regarding discharge of the duties summarized in this policy should be addressed to the compliance coordinator. Any employee of the district or member of the Board of Education who becomes apprised of a possible violation of this policy must report the matter to the coordinator. In the event the compliance coordinator is the subject of a report that would otherwise be made to the compliance coordinator, reports should instead be directed to the superintendent, who will assume the coordinator's duties for the purpose of that complaint.

Confidentiality of Records

To the extent permitted by law, any public record held by this school district that is generated or received pursuant to this policy shall be closed and available only to

the Board acting as quorum, a committee appointed by the Board to carry out this policy on a permanent or ad hoc basis, the compliance coordinator and other administrators whose duties require access to the record in the order to carry out this policy. Such persons may share access, on an individual basis, to such records with complainants or participants in a grievance or other resolution; only to the extent such disclosure promotes the purposes of this policy and is not prohibited by Family Education Rights and Privacy Act (FERPA) or any other law. Certain other limited disclosure may be required when material in the records is integral to an action affecting a constitutionally recognized property or liberty interest.

Rights for Elementary & Secondary Schools

FERPA affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records These rights are:

1. The right to inspect and review the student's education record within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the School principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate or misleading. Parents or eligible students may ask the School to amend a record that they believe is inaccurate or misleading. They should write the School principal [or appropriate official], clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the School decides not to amend the record as requested by the parent or eligible student, the School will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One expectation, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. [Optional] Upon request, the School discloses education

records without consent to officials of another school district in which a student seeks or intends to enroll. [NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:
